Safety Data Sheet

According To Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules And Regulations Revision Date: 11/13/2024 Date of Issue: 11/13/2024

### **SECTION 1: IDENTIFICATION**

### 1.1. Product Identifier

Product Form: Mixture Product Name: Ultimate Diesel Restore

Part #: UD403

#### **1.2.** Intended Use of the Product

Use of the Substance/Mixture: Automotive

#### 1.3. Name, Address, and Telephone of the Responsible Party

Company

Ultimate Automotive Products, Inc. 7696 SW Jack James Drive Stuart, FL 34997 772-600-5138

#### www.ultimateautomotiveproducts.com

1.4. Emergency Telephone Number

### Emergency Number

: 813-248-0585 ChemTel

### SECTION 2: HAZARDS IDENTIFICATION

#### 2.1. Classification of the Substance or Mixture

| 2.1. Classification of the Substance or Mixture |                |   |
|---|----------------|---|
| GHS-US Classification                           |                |   |
| Flam. Liq. 4                                    | H227           |   |
| Skin Irrit. 2                                   | H315           |   |
| Eye Irrit. 2A                                   | H319           |   |
| STOT SE 3                                       | H336           |   |
| Asp. Tox. 1                                     | H304           |   |
| Aquatic Acute 2                                 | H401           |   |
| Aquatic Chronic 2                               | H411           |   |
| Full text of hazard classes a                   | nd H-statement | s : see section 16  |
| 2.2. Label Elements                             |                |   |
| GHS-US Labeling                                 |                |   |

|   |                |   |
|   |                |   |
|   |                | GHS07 GHS08 GHS09   |
| Signal Word (GHS-US)                            |                | : Danger  |
| Hazard Statements (GHS-U                        | S)             | : H227 - Combustible liquid.  |
|   |                | H304 - May be fatal if swallowed and enters airways.                              |
|   |                | H315 - Causes skin irritation.  |
|   |                | H319 - Causes serious eye irritation.   |
|   |                | H336 - May cause drowsiness or dizziness.   |
|   |                | H401 - Toxic to aquatic life.   |
|   |                | H411 - Toxic to aquatic life with long lasting effects.                           |
| Precautionary Statements                        | (GHS-US)       | : P210 - Keep away from extremely high or low temperatures, ignition sources, and |
|   |                | incompatible materials No smoking.  |
|   |                | P261 - Avoid breathing vapors, mist, or spray.                                    |
|   |                | P264 - Wash hands, forearms, and other exposed areas thoroughly after handling.   |
|   |                | P271 - Use only outdoors or in a well-ventilated area.                            |
|   |                | P273 - Avoid release to the environment.  |
|   |                | P280 - Wear protective gloves, protective clothing, and eye protection.           |
|   |                | P301+P310 - If swallowed: Immediately call a poison center or doctor.             |
|   |                | P302+P352 - If on skin: Wash with plenty of water.                                |
|   |                | P304+P340 - If inhaled: Remove person to fresh air and keep at rest in a position |
|   |                | comfortable for breathing.  |
|   |                | P305+P351+P338 - If in eyes: Rinse cautiously with water for several minutes.     |
|   |                | Remove contact lenses, if present and easy to do. Continue rinsing.               |
|   |                | P312 - Call a poison center or doctor if you feel unwell.                         |

Version: 1.0

Safety Data Sheet

According to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

P321 - Specific treatment (see section 4 on this SDS).P331 - Do NOT induce vomiting.P332+P313 - If skin irritation occurs: Get medical advice/attention.

P337+P313 - If eye irritation persists: Get medical advice/attention.

P362+P364 - Take off contaminated clothing and wash it before reuse.

P370+P378 - In case of fire: Use appropriate media (see section 5) to extinguish.

P391 - Collect spillage.

P403+P233 - Store in a well-ventilated place. Keep container tightly closed.

P403+P235 - Store in a well-ventilated place. Keep cool.

P405 - Store locked up.

P501 - Dispose of contents/container in accordance with local, regional, national, and international regulations.

#### 2.3. Other Hazards

Exposure may aggravate pre-existing eye, skin, or respiratory conditions. Contains benzene, a regulated human carcinogen. Benzene has the potential to cause anemia and other blood diseases, including leukemia, after repeated and prolonged exposure. Exposure to light hydrocarbons in the same boiling range as this product has been associated in animal studies with systemic toxicity. See also Section 11 – Toxicological Information.

#### 2.4. Unknown Acute Toxicity (GHS-US)

#### No data available

#### SECTION 3: COMPOSITION/INFORMATION ON INGREDIENTS

#### 3.1. Substance

Not applicable

#### 3.2. Mixture

### SECTION 4: FIRST AID MEASURES

#### 4.1. Description of First-aid Measures

**First-aid Measures General:** Never give anything by mouth to an unconscious person. If you feel unwell, seek medical advice (show the label where possible).

**First-aid Measures After Inhalation:** When symptoms occur: go into open air and ventilate suspected area. Obtain medical attention if breathing difficulty persists.

**First-aid Measures After Skin Contact:** Remove contaminated clothing. Drench affected area with water for at least 15 minutes. Obtain medical attention if irritation develops or persists.

**First-aid Measures After Eye Contact:** Rinse cautiously with water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Obtain medical attention.

**First-aid Measures After Ingestion:** Do NOT induce vomiting. Rinse mouth. Immediately call a POISON CENTER or doctor/physician.

#### 4.2. Most Important Symptoms and Effects Both Acute and Delayed

**Symptoms/Injuries:** Causes serious eye irritation. Causes skin irritation. May cause drowsiness and dizziness. May be fatal if swallowed and enters airways.

**Symptoms/Injuries After Inhalation:** High concentrations may cause central nervous system depression such as dizziness, vomiting, numbness, drowsiness, headache, and similar narcotic symptoms.

Symptoms/Injuries After Skin Contact: Redness, pain, swelling, itching, burning, dryness, and dermatitis.

Symptoms/Injuries After Eye Contact: Contact causes severe irritation with redness and swelling of the conjunctiva.

**Symptoms/Injuries After Ingestion:** Aspiration into the lungs can occur during ingestion or vomiting and may cause lung injury or death.

**Chronic Symptoms:** Contains benzene, a regulated human carcinogen. Benzene has the potential to cause anemia and other blood diseases, including leukemia, after repeated and prolonged exposure.

#### 4.3. Indication of Any Immediate Medical Attention and Special Treatment Needed

If exposed or concerned, get medical advice and attention. If medical advice is needed, have product container or label at hand.

#### SECTION 5: FIRE-FIGHTING MEASURES

#### 5.1. Extinguishing Media

**Suitable Extinguishing Media:** Dry chemical powder, alcohol-resistant foam, carbon dioxide (CO<sub>2</sub>). Water may be ineffective but water should be used to keep fire-exposed container cool.

Unsuitable Extinguishing Media: Do not use a heavy water stream. A heavy water stream may spread burning liquid.

#### 5.2. Special Hazards Arising From the Substance or Mixture

**Fire Hazard:** Combustible liquid. Vapors are heavier than air and may travel considerable distance to an ignition source and flash back to source of vapors.

**Explosion Hazard:** May form flammable or explosive vapor-air mixture. Containers may rupture when exposed to excessive heat. **Reactivity:** Reacts violently with strong oxidizers. Increased risk of fire or explosion.

#### 5.3. Advice for Firefighters

Precautionary Measures Fire: Exercise caution when fighting any chemical fire.

Safety Data Sheet

According to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

**Firefighting Instructions:** Use water spray or fog for cooling exposed containers. In case of major fire and large quantities: Evacuate area. Fight fire remotely due to the risk of explosion.

**Protection During Firefighting:** Do not enter fire area without proper protective equipment, including respiratory protection. **Hazardous Combustion Products:** Carbon oxides (CO, CO<sub>2</sub>). aldehydes, ketones. Organic acids. Toxic fumes may be released. **Other Information:** Do not allow run-off from fire fighting to enter drains or water courses.

#### SECTION 6: ACCIDENTAL RELEASE MEASURES

#### 6.1. Personal Precautions, Protective Equipment and Emergency Procedures

**General Measures:** Avoid breathing (vapor, mist, spray). Do not get in eyes, on skin, or on clothing. Keep away from heat, hot surfaces, sparks, open flames, and other ignition sources. No smoking. Use special care to avoid static electric charges.

#### 6.1.1. For Non-Emergency Personnel

Protective Equipment: Use appropriate personal protection equipment (PPE).

Emergency Procedures: Evacuate unnecessary personnel. Stop leak if safe to do so.

#### 6.1.2. For Emergency Personnel

Protective Equipment: Equip cleanup crew with proper protection.

**Emergency Procedures:** Upon arrival at the scene, a first responder is expected to recognize the presence of dangerous goods, protect oneself and the public, secure the area, and call for the assistance of trained personnel as soon as conditions permit. Ventilate area. Eliminate ignition sources.

#### 6.2. Environmental Precautions

Prevent entry to sewers and public waters. Avoid release to the environment. Collect spillage.

#### 6.3. Methods and Materials for Containment and Cleaning Up

**For Containment:** Contain any spills with dikes or absorbents to prevent migration and entry into sewers or streams. As an immediate precautionary measure, isolate spill or leak area in all directions.

**Methods for Cleaning Up:** Clean up spills immediately and dispose of waste safely. Absorb and/or contain spill with inert material. Do not take up in combustible material such as: saw dust or cellulosic material. Use only non-sparking tools. Transfer spilled material to a suitable container for disposal. Contact competent authorities after a spill.

#### 6.4. Reference to Other Sections

See Section 8 for exposure controls and personal protection and Section 13 for disposal considerations.

#### SECTION 7: HANDLING AND STORAGE

#### 7.1. Precautions for Safe Handling

Additional Hazards When Processed: Handle empty containers with care because residual vapors are flammable. Precautions for Safe Handling: Wash hands and other exposed areas with mild soap and water before eating, drinking or smoking and when leaving work. Avoid breathing vapors, mist, spray. Avoid contact with skin, eyes and clothing. Take precautionary measures against static discharge. Use only non-sparking tools.

Hygiene Measures: Handle in accordance with good industrial hygiene and safety procedures.

#### 7.2. Conditions for Safe Storage, Including Any Incompatibilities

**Technical Measures:** Comply with applicable regulations. Take action to prevent static discharges. Ground and bond container and receiving equipment. Use explosion-proof electrical, ventilating, and lighting equipment.

**Storage Conditions:** Store in a dry, cool place. Keep/Store away from direct sunlight, extremely high or low temperatures and incompatible materials. Store in a well-ventilated place. Keep container tightly closed. Keep in fireproof place.

Incompatible Products: Strong acids, strong bases, strong oxidizers.

#### 7.3. Specific End Use(s)

Automotive

### SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

#### 8.1. Control Parameters

For substances listed in section 3 that are not listed here, there are no established exposure limits from the manufacturer, supplier, importer, or the appropriate advisory agency including: ACGIH (TLV), AIHA (WEEL), NIOSH (REL), or OSHA (PEL).

| 2-Butoxyetha | 2-Butoxyethanol (111-76-2)           |   |  |
|--------------|--------------------------------------|---|--|

: Emergency eye wash fountains and safety showers should be available in the

#### 8.2. Exposure Controls

Appropriate Engineering Controls

| Personal Protective Equipment          | <ul> <li>immediate vicinity of any potential exposure. Ensure adequate ventilation, especially in confined areas. Ensure all national/local regulations are observed. Gas detectors should be used when flammable gases or vapors may be released. Proper grounding procedures to avoid static electricity should be followed. Use explosion-proof equipment.</li> <li>Gloves. Protective clothing. Protective goggles. Insufficient ventilation: wear respiratory protection.</li> </ul> |
|--|---|
| Materials for Protective Clothing      | : Chemically resistant materials and fabrics. Wear fire/flame resistant/retardant clothing.   |
| Hand Protection                        | : Wear protective gloves.   |
| Eye Protection                         | : Chemical safety goggles.  |
| Skin and Body Protection               | : Wear suitable protective clothing.  |
| Respiratory Protection                 | : If exposure limits are exceeded or irritation is experienced, approved respiratory  |
|  | protection should be worn. In case of inadequate ventilation, oxygen deficient  |
|  | atmosphere, or where exposure levels are not known wear approved respiratory  |
|  | protection.   |
| Other Information                      | : When using, do not eat, drink or smoke.   |

Safety Data Sheet

According to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

#### Viscosity

: No data available

# 9.2. Other Information No additional information available SECTION 10: STABILITY AND REACTIVITY

**10.1. Reactivity:** Reacts violently with strong oxidizers. Increased risk of fire or explosion.

10.2. Chemical Stability: May form flammable or explosive vapor-air mixture. Combustible liquid.

10.3. Possibility of Hazardous Reactions: Hazardous polymerization will not occur.

**10.4.** Conditions to Avoid: Direct sunlight, extremely high or low temperatures, heat, hot surfaces, sparks, open flames, incompatible materials, and other ignition sources.

10.5. Incompatible Materials: Strong acids, strong bases, strong oxidizers.

10.6. Hazardous Decomposition Products: None expected under normal conditions of use.

#### **SECTION 11: TOXICOLOGICAL INFORMATION**

#### **11.1.** Information on Toxicological Effects

Acute Toxicity: Not classified

Reproductive Toxicity: Not classified

Specific Target Organ Toxicity (Single Exposure): May cause drowsiness or dizziness.

Specific Target Organ Toxicity (Repeated Exposure): Not classified

Aspiration Hazard: May be fatal if swallowed and enters airways.

Symptoms/Injuries After Inhalation: High concentrations may cause central nervous system depression such as dizziness,

vomiting, numbness, drowsiness, headache, and similar narcotic symptoms.

Symptoms/Injuries After Skin Contact: Redness, pain, swelling, itching, burning, dryness, and dermatitis.

Symptoms/Injuries After Eye Contact: Contact causes severe irritation with redness and swelling of the conjunctiva.

**Symptoms/Injuries After Ingestion:** Aspiration into the lungs can occur during ingestion or vomiting and may cause lung injury or death.

**Chronic Symptoms:** Contains benzene, a regulated human carcinogen. Benzene has the potential to cause anemia and other blood diseases, including leukemia, after repeated and prolonged exposure.

**12.4.** Mobility in Soil: No additional information available

#### 12.5. Other Adverse Effects

Other Information

: Avoid release to the environment.

#### SECTION 13: DISPOSAL CONSIDERATIONS 13.1. Waste Treatment Methods

Waste Disposal Recommendations: Dispose of contents/container in accordance with local, regional, national, and international regulations.

Additional Information: Handle empty containers with care because residual vapors are flammable.

**Ecology** - Waste Materials: Avoid release to the environment. This material is hazardous to the aquatic environment. Keep out of sewers and waterways.

#### **SECTION 14: TRANSPORT INFORMATION**

The shipping description(s) stated herein were prepared in accordance with certain assumptions at the time the SDS was authored, and can vary based on a number of variables that may or may not have been known at the time the SDS was issued.

#### SECTION 16: OTHER INFORMATION, INCLUDING DATE OF PREPARATION OR LAST REVISION

**Revision Date** 

: 11/13/2024

**Other Information** 

: This document has been prepared in accordance with the SDS requirements of the OSHA Hazard Communication Standard 29 CFR 1910.1200

#### **GHS Full Text Phrases:**

| Acute Tox. 4 (Dermal)           | Acute toxicity (dermal) Category 4                               |
|---------------------------------|--|
| Acute Tox. 4 (Inhalation:vapor) | Acute toxicity (inhalation:vapor) Category 4                     |
| Acute Tox. 4 (Oral)             | Acute toxicity (oral) Category 4                                 |
| Aquatic Acute 2                 | Hazardous to the aquatic environment - Acute Hazard Category 2   |
| Aquatic Chronic 2               | Hazardous to the aquatic environment - Chronic Hazard Category 2 |
| Aquatic Chronic 3               | Hazardous to the aquatic environment - Chronic Hazard Category 3 |
| Asp. Tox. 1                     | Aspiration hazard Category 1                                     |
| Carc. 1A                        | Carcinogenicity Category 1A                                      |
| Carc. 1B                        | Carcinogenicity Category 1B                                      |
| Eye Irrit. 2A                   | Serious eye damage/eye irritation Category 2A                    |
| Eye Irrit. 2B                   | Serious eye damage/eye irritation Category 2B                    |
| Flam. Liq. 1                    | Flammable liquids Category 1                                     |
| Flam. Liq. 2                    | Flammable liquids Category 2                                     |
| Flam. Liq. 3                    | Flammable liquids Category 3                                     |
| Flam. Liq. 4                    | Flammable liquids Category 4                                     |
| Muta. 1B                        | Germ cell mutagenicity Category 1B                               |
| Repr. 1B                        | Reproductive toxicity Category 1B                                |
| Repr. 2                         | Reproductive toxicity Category 2                                 |
| Skin Irrit. 2                   | Skin corrosion/irritation Category 2                             |
| STOT RE 1                       | Specific target organ toxicity (repeated exposure) Category 1    |
| STOT RE 2                       | Specific target organ toxicity (repeated exposure) Category 2    |
| STOT SE 3                       | Specific target organ toxicity (single exposure) Category 3      |
| STOT SE 3                       | Specific target organ toxicity (single exposure) Category 3      |
| H224                            | Extremely flammable liquid and vapor                             |
| H225                            | Highly flammable liquid and vapor                                |
| H226                            | Flammable liquid and vapor                                       |
| H227                            | Combustible liquid   |
| H302                            | Harmful if swallowed   |
| H304                            | May be fatal if swallowed and enters airways                     |
| H312                            | Harmful in contact with skin                                     |
| H315                            | Causes skin irritation   |
| H319                            | Causes serious eye irritation                                    |
| H320                            | Causes eye irritation  |
| H332                            | Harmful if inhaled   |
| H335                            | May cause respiratory irritation                                 |
| H336                            | May cause drowsiness or dizziness                                |

Safety Data Sheet

According to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

| H340 | May cause genetic defects   |
|------|---|
| H350 | May cause cancer  |
| H360 | May damage fertility or the unborn child                          |
| H361 | Suspected of damaging fertility or the unborn child               |
| H372 | Causes damage to organs through prolonged or repeated exposure    |
| H373 | May cause damage to organs through prolonged or repeated exposure |
| H401 | Toxic to aquatic life   |
| H411 | Toxic to aquatic life with long lasting effects                   |
| H412 | Harmful to aquatic life with long lasting effects                 |
